

## SMD 5050 LED Dimming Light Strip with Remote Control 16 COLORS

### Modes:

16 color options  
with 9 step dimming  
2 flash speed settings  
& transitional fade speeds

**Increase Brightness**

**Decrease Brightness**

- **Flash:** Quickly blink through the color range
- **Strobe:** Slowly cycle through the color range, 3 sec on each color
- **Fade:** Transitionally fade through the color spectrum
- **Smooth:** Transitionally fade through the color spectrum slowly

Light strip body itself is rated IP67

The controller and power cable attachment + supply

ARE NOT waterproof. Keep them dry.

### IMPORTANT

- **Do not** operate when the flexible light is tightly coiled
- **Do not** puncture, cut, shorten, or splice
- **Do not** use if there is any damage to the rope or cord insulation. (Inspect periodically)
- **Do not** submerge rope light in water, or use the product in the vicinity of standing water or other liquids
- **Do not** subject rope light to continuous flexing, stretching or bending
- **Do not** cover rope light, as covering it may cause the rope light to overheat, melt or ignite
